[Contact Me](#)

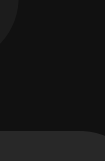

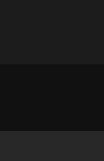

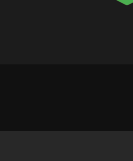

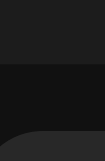

Hi, I'm Tyshawn, a Passionate Front-End developer

I craft clean, responsive, and dynamic websites that bring ideas to life. With expertise in HTML, CSS, JavaScript, and React, I focus on creating seamless user experiences and visually striking interfaces. Whether you're a business looking for a website or an employer seeking talent, I'm here to help build your vision.

Skills & Expertise

Here are the technologies and tools i use to create functional and engaging websites:

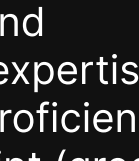

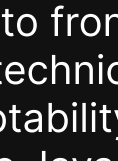

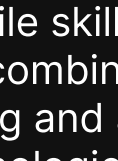

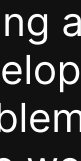

Front-End Development

Back-End Development

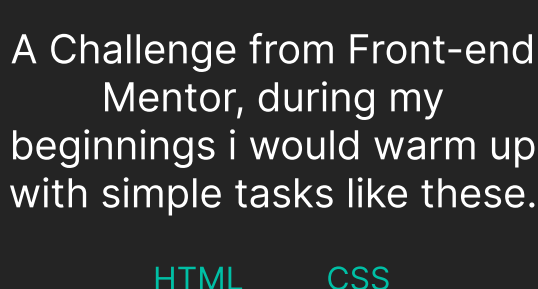

Supporting Tools

I bring a versatile skill set to front-end development, combining technical expertise with problem-solving and adaptability. Proficient in core web technologies like JavaScript (green), I am actively expanding my knowledge in React (yellow) to build dynamic applications and occasionally practicing Bash scripting (grey) to enhance my workflow. My approach prioritizes responsive design, accessibility, and engaging user interfaces, complemented by strong communication and collaboration skills that enable me to adapt to diverse challenges.

Recent Projects & Learning Highlights

QR Code Card

A Challenge from Front-end Mentor, during my beginnings i would warm up with simple tasks like these.

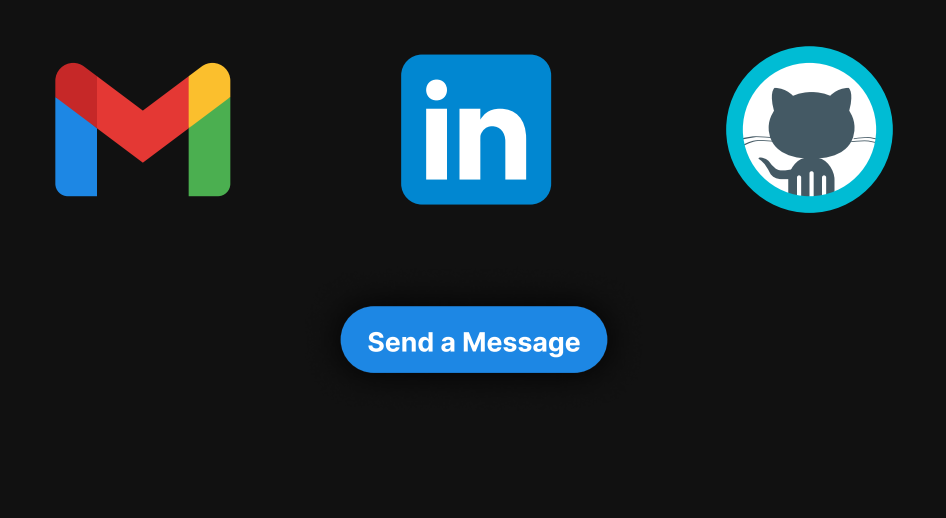

HTML

CSS
